Assistant Commissioner for Patents  
Washington, DC 20231

Sir:

**ELECTION UNDER 35 USC §121**

In response to the Office Action dated September 10, 2002, Applicants elect Species I (the species of Figs. 2, 4, 6 and 8, claims 1, 3-8, 31 and 34) for further prosecution in the event no generic claim is finally held to be allowable.

Applicants believe claims 32 and 33 should be classified in Species IV rather than in Species V, because the characteristic of claim 32 that is "depositing an electrode layer on the active matrix substrate and patterning the electrode layer so as to fabricate the scanning line and the pixel electrode" is same as the characteristic of claims 16 included in Species VI.

In Applicants' judgment, applicants show the relation between claims and the drawings that show cross-sectional views of the active matrix substrate as the respective species which correspond to the existing claims as follows:

Species I:	Figs. 2, 4, 6 and 8
Species II:	Figs. 2, 4, 6 and 8
Species III:	Fig. 4
Species IV:	Figs. 20 and 21
Species V:	Figs. 23, 25, 27, 29 and 31

As shown, Fig. 25 represents not Species III but Species V and Fig. 27 represent not Species IV but Species V.

The Commissioner is authorized to charge the undersigned's deposit account no. 14-1140 in whatever amount is necessary for entry of this Amendment and the continued pendency of the captioned application, including but not limited to any extension of time fees.

Should the Examiner feel that an interview with the undersigned would facilitate allowance of this application, the Examiner is encouraged to contact the undersigned.

Respectfully submitted,
